COMPENSATION STUDY BRIEFING OUTLINE

FOR

DCI MEETING

- ° Consultant study being performed by [redacted] which began in September, is about half completed and will end on 1 April. 25X1 25X1
- ° Study consists of two parts:
 - Phase I examines overseas positions only, but is community-wide in nature (CIA, State, NSA, and DIA).
 - Phase II includes a comprehensive review of the Agency-wide pay system.
- ° Phase I of the study is a response to a Congressional initiative contingent on temporary approval of the interim 9.6 percent overseas differential, and the recommendations will serve as a basis for negotiating a permanent solution to the overseas pay problem with HPSCI, SSCI, and HAC.
- ° The Agency is committed to report the results of the study to Congress by 1 February 1982 and will meet this target. The Consultants game plan calls for delivery of the Phase I report by 15 January 1982.

- ° The Consultants were organized in two teams of two each and both teams were accompanied by a senior personnel official from CIA and NSA. Both teams interviewed journeymen-level employees in each of the four major Agency occupational areas (Operations Officer, Administrative Officer, Communicator, and Secretary) and their equivalents, where possible, in State and NSA.
- ° In order to establish a solid data base for their recommendations we asked the Consultants to enlarge the audit sample beyond our original projections. As a result they conducted 128 interviews and received 35 briefings. Each member of the team recorded the results on a standard questionnaire and an interview summary will be included in the report.
